Summary

I am an experienced IT professional with a strong background in the Power Platform, encompassing Power BI, Power Apps, Power Automate, Power Pages, and Power Virtual Agents. Additionally, I possess expertise in Microsoft 365, Teams, and SharePoint.

I'm Microsoft MVP for Business Applications and Data Platform Category. Currently, I hold the role of Power Platform Practice Lead at Prometix, where I lead and guide the implementation of Power Platform solutions.

My career journey began as a .NET Developer before transitioning to SharePoint, Microsoft 365, and ultimately the Power Platform.

As a Power Apps Consultant, I specialize in developing intricate business processes utilizing various Power Apps, including Canvas Apps, Model-Driven Apps, and Portals Apps. My experience spans both the private and government sectors in Australia. Presently, I provide technical solutions with a focus on sound architecture, guiding businesses through their digital transformation journey. Throughout my career, I have successfully delivered numerous solutions in alignment with industry standards.

Moreover, I have expertise in Power Pages, having developed public-facing websites that adhere to organizational standards, incorporating theme colors, implementing complex and extensive multi-step forms, and defining robust security architectures.

Within the realm of Power BI, I have undertaken over 50 Power BI initiatives, positioning myself as a subject matter expert in various components such as Power BI Desktop, Power BI Service, Power BI Report Server, Power BI Paginated Reports, and Power BI Embedded, among others.

My proficiency extends to Power Automate, where I excel in automating business processes by leveraging Power Automate Flows. Integration between disparate systems is a particular area of expertise. I provide businesses with cost-effective and future-proof solutions, including the development of complex flows and custom connectors. Additionally, I possess extensive knowledge of Dataflows, Azure Synapse linking, and other related technologies.

Furthermore, I possess subject matter expertise in Power Virtual Agents. As a Power Virtual Agents developer, I specialize in constructing AI-powered chatbots, IT help desks and chatbots that seamlessly communicate with Azure.

I actively share my expertise through various channels, including YouTube, LinkedIn, and Instagram. My YouTube channel boasts a significant following of over 40K subscribers,
